VVA Board of Directors Monthly Meeting — November 8, 2026

The regular monthly meeting of the Board of Directors of the Viking Valley Association was held on November 8, 2026 at 12:30 PM in the Upper Clubhouse. Board Members present were: Michelle Sullivan (Lot #1826) - Board President, Dan Weidmaier (Lot #309) - 1st Vice President, Dave Schaefer (Lot #1227) - 2nd Vice President, Christina Lindsay (Lot #429) - Secretary, Tom Rice (Lot #343) - Assistant Secretary, Robert Walton (Lot #217) - Treasurer, Dave Daniel (Lot #231) - Assistant Treasurer.

The board moved into Executive Session to discuss legal matters, third party contracts and employee matters at 12:30 PM.

Tom made a motion to open the meeting to the public at 2:00 PM. Dave Schaefer seconded the motion. Motion passed. There were 17 members in attendance.

Michelle read our mission statement: Lake Viking is a private lake aspiring to preserve our community and environment for future generations. The pledge was led by Brian Holcomb, Lake Director. Dave Daniel offered a moment of silence for members we have lost, and then he prayed.

Tom made a motion to approve the minutes from the October 4, 2026 Annual Meeting. Dave Schaefer seconded the motion. Motion passed.

Dave Schaefer reported for the Finance Committee. The committee reviewed the Morgan Stanley accounts, noting that the VVA Investment Fund value was down $32,981 for October 2026. A year-end tax harvest discussion was held regarding the opportunity to offset $43,935 in capital gains, which would otherwise create a potential tax liability exceeding $9,000, with unrealized losses of $47,551. The committee recommends referring this to the Association's tax consultant. During the review of the October financial documents, questions were raised regarding undeposited funds, safety payroll increases, and campground expenses, with further explanations forthcoming. The committee also noted that two Association-owned lots were sold in September for $7,600 and three lots were sold in October for $10,800, with additional income expected in November due in part to the replatting of several tier lots in the airport area per an earlier commitment to the membership. Finally, the office manager projects a significant year-end net income surplus driven by cost-cutting measures, higher collections, and lot sales. To offset the resulting tax liability, the committee will continue to discuss possible capital expenditure purchases before the end of the year.

There was no report for the Strategic Planning Committee.

Dan reported for the Activity Committee. Several activities were held, with good attendance, including the Paint and Sip party, the Trunk or Treat activity, and the Adult Halloween party. Several members from the Activity Committee attended and supported the Fire Department's chili cook-off.

Richard Woodruff (Lot #98) reported for the Building Committee. The committee processed and approved 40 permits, which included one for a new home, several for docks, and a significant number for roof repairs. Two members will be joining the committee, with a formal motion for their approval scheduled for the December Board of Directors meeting, and the committee continues to actively work on handbook revisions.

Fire Chief Dennis Schlaiss (Lot #1080) reported for the Fire Department. He noted that the Town Hall meeting held on October 25, 2026 was well attended, and he extended his thanks to the Board and Brian for their hard work on the event. Chief Schlaiss reported that the Jamesport Fire Department donated an ambulance, which will be converted into a brush truck, and that the recent chili cook-off was a success, raising roughly $1,700 in donations. During the month, the department responded to 8 calls, which included one accident and no fire calls. Additionally, all department trucks were cleaned and a fire hose test was successfully completed. Finally, the department is discussing a new pumper truck and the potential construction of a new firehouse on the south side of the lake to cover areas currently outside of five road miles from the existing station, a project that could improve the lake's overall fire classification and ISO ratings.

Dave Daniel reported for the Campground Committee. The committee held a Zoom meeting in October and announced that the new Campground Managers officially started their duties as of November 1, 2026. The committee brought a handbook rule change before the board to update the Campground Manager's phone number. Tom motioned to approve the phone number change. Christina seconded the motion. Motion passed.

There was no report for the Lake Committee.

Dan Weidmaier reported for the Infraction Committee. He noted that the committee held its final meeting of the year, during which members reviewed 26 infractions, and announced that the committee will reconvene in April of 2027.

Dave Daniel reported for the Dredge Committee. He noted that Bret Bush (Lot #324) and Brian recently inspected a weir on behalf of the committee, and the committee plans to reconvene after the holidays. Additionally, it was reported that one employee whose compensation is partially covered by the Dredge Committee has resigned, leaving the Maintenance Department down one worker.

There was no report for the Fishing Committee.

Brian gave the Managing Director's Report. The Maintenance Department mowed roads and lots, repaired ruts on Gulfstream, and replaced a tube on Mooney. They finalized repairs on many roads in preparation for chip and seal and cleaned up limbs and debris in and around the lake after storms. A ditch washout on Annapolis was fixed, and crews repaired and cleaned debris at rock weirs and shorelines. They power washed bricks at the pool, installed the pool cover, changed leaf springs on a trailer, and assisted the Special Road District with road work.

Crews dipped out the creek on Community Area SC 7032, reformed weirs at Community Areas 5, 8, and 9, and washed all work vehicles and equipment.

Safety issued 208 warnings and 32 infractions, sent twelve 30-day letters for the Lake Committee, stickered 26 watercrafts, conducted 8 zebra washes, and towed 3 watercrafts. They responded to 6 medical calls and a head-on motor vehicle accident on Lake Viking Terrace just north of the Marina. They posted 51 building permits after approval from the Building Committee, processed 27 member requests adding guests to HOALife accounts, and processed and approved 24 deer hunting permits. Crews patrolled 2,067 miles on land, secured the clubhouse and main office at the end of each day, assisted in closing the pool for winter, and retrieved a lost jet ski slip near the harbor. They inspected AEDs, set up chairs and tables for the annual meeting, and cleaned the fire department training room. Safety worked with the Lake Manager and Maintenance to close the lake due to high water levels by activating red lights to signal lake closure and posting signs at the entrances. They replaced tires on the Maverick, cleaned up limbs and debris in and around the lake after storms, and removed unapproved real estate and political signs. They responded to member complaints about septic alarms going off at multiple locations around the lake.

It has been a very busy time since the last edition of the Lake Viking News. The past month has featured several great events including a Fire Department Town Hall on October 25, while the Lake Viking Activities Committee hosted a Painting Party on October 24 followed by a Trunk or Treat for the kids and a Halloween Costume Party both occurring on October 31. Then on November 7 the Volunteer Fire Department's Chili Cook-Off took front and center. All of these events occurred as the glorious autumn colors of the trees peaked and then faded as their leaves were scattered in the wind. Wishes for a Happy Thanksgiving!

VVA Meeting

(continued from page 1)

Staff checked every property with a house to ensure the 911 address and lot numbers were posted near the road and lot numbers posted on docks and boathouses were visible from the water. Finally, crews cleaned and detailed the fire department vehicles, attended the monthly fire department meeting and training, attended the Fire Department Town Hall meeting, conducted an annual hose pressure test, and assisted the Daviess County Sheriff's Office with an investigation and arrest.

The Office processed the sale of 5 lots for $18,400 and redeemed 4 lots purchased at tax sales by obtaining a Collector's Deed for each property. They invoiced Campground full-time members and Lake Viking News accounts. Donita contacted 163 past-due members, collecting $23,601 from 43 accounts. Staff sent Safety the list of suspended trash accounts from Rapid Removal, managed Clubhouse rentals, and updated the Lake Viking website. They updated, printed, and bound handbooks, and updated the list of lots for sale and the committee member list. Staff assisted walk-in customers and answered phone calls and emails. They processed 51 deeds, posted announcements on Facebook, and sent emails through HOALife. Staff prepared Board packets and took minutes during the monthly board meeting and Annual Meeting. They created a member list, ballots, and tally sheets for the Annual Meeting, and attended the Fire Department Town Hall meeting. Staff reviewed and processed invoices, prepared and processed bank deposits, and ran payroll by inputting hours, the IRA match, and reviewing ADP journal entries. They ordered supplies, prepared and submitted monthly sewer lagoon measurements to the DNR, and prepared financial documents for the Campground Committee and Finance Committee. Staff prepared variance explanations with a $10,000 and 10% threshold for the Finance Committee, continued digitizing historic building permits, and supplied information for and participated in the annual Workers' Compensation insurance audit. Finally, they prepared a Clubhouse income and expenses summary, a past-due collected and paid summary, and an account reconciliation for a past-due member.

Mike Head resigned from his position in Maintenance.

We secured a permit for the Clubhouse Septic project. The contractor and supplier will be updating their estimates due to the changes that were made to satisfy concerns raised by the Missouri Department of Health during the permit application process. This will be the contractor's first project after the ground thaws, and we should know more in December about a potential start date. Blackout dates for clubhouse rentals to accommodate for the septic installation are currently in effect through May 31, 2026.

We obtained collector's deeds for 3 lots that were purchased at tax sales. One of the lots, MH-44 located at the intersection of Rowboat and Reel, will be cleared soon.

We obtained a new snowplow, camera upgrades at the maintenance yard, and camera upgrades at the boat ramp.

We are still working on a recommendation for the Board to consider regarding rules for the leaking septic systems that have been reported to the office. During a review of historic Board meeting minutes, I found entries indicating all septic systems were routinely inspected in the past and if a member failed to repair a leaking septic the Association would shut their water off. That is not an option since the water district is no longer controlled by the Association, but the Utilities Covenant still indicates sewage disposal units or systems are subject to periodic inspection as directed by the Association; and, HOA's can create rules that are at least as strict, or stricter, than state law.

Tomorrow, Vance Brothers will begin chip sealing the following 6 miles of Lake Viking roads: East Main, West Main, Angler, Bass, Bluegill, Crayfish, Canoe, Decoy, Duck, Deer Run, Yacht Club Circle, Eagle Point, Goose, Galleon, Harbor, Ivy, Leeward, Lure, Lindberg, Mallard, Mooney, Oar, Port, Quail, Reel, Raccoon, Scuba, Sailor, Shad, Shell, Sunfish, Waterworks, Tackle, Trout, Whitecap, and Wayside. The Special Road District will also chip seal 190th Street, 165th Street, Oval Avenue west of 165th Street, and Frog Road east of 165th Street. Please remove all vehicles and personal belongings from these roads so the work can be completed without obstruction. Roads will remain open during construction. Please drive cautiously and watch for workers and equipment when traveling through work zones.

The Jamesport Fire Department donated a 2001 Ford F350 ambulance to Lake Viking. We are not planning to operate an ambulance service; instead, we are exploring options to convert the ambulance to a brush fire/rescue truck to replace the 1985 Chevrolet pickup currently in use. Thank you, Jamesport Fire Department, for this generous donation!

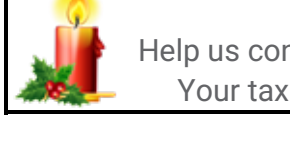

Tom made a motion to approve the Septem-

Finance Committee Meeting November 2026

Call to Order: Thursday, November 5th, 2026 at 5:00 PM on ZOOM.

Roll Call of Attendees: David Schaefer Chair, Dan Ackart, Robert Walton, Peter Almenoff, Deena Stous, Steve Danner, Dan Weidmaier, Flint Hibler, Troy Lesan, Office Manager Yvonne Erickson, & Lake Manager Brian Holcomb

Agenda Items

Morgan Stanley Monthly Financial Review The value of the VVA Investment Fund was down $32,981 for October 2026.

Year End Tax Harvest Discussion There may be a need to offset $43,935 in capital gains (which would create a potential tax liability in excess of $9,000) with unrealized losses of $47,551. The committee recommends referring this to our tax consultant.

Lake Viking Investment Purpose Statement The committee agreed to review the Lake Viking Strategic Action Plan to see if a more comprehensive statement on this topic is needed.

October Financial Documents Questions were entertained on Undeposited Funds, increases in Safety Payroll and Campground Expenses. **Further explanations are forthcoming.

Sale of Association Owned Lots Two lots were sold in September for $7,600; three lots were sold in October for $10,800 with more income expected in November, some due to the Association replatting several tier lots in airport area per an earlier commitment made to membership.

Lake Director Report As the result of the continued realization of cost cutting measures, increased collections, and this year's sales of Association owned lots, the office manager is projecting a significant year-end increase in income. It was noted that there are three upcoming capital expenditure items including a Fire Department pumper truck, a dump truck, and playground equipment that should occur in order in order to offset the increased tax liability that is certain to come with the increase in income. The Committee agreed on a recommendation to Board of Directors that these items be purchased before year-end if increased income projections materialize.

With no further business, meeting adjourned at 6:15

Minutes respectfully reported by Troy Lesan

*** The undeposited funds were from the sale of SU-2511 that VVA received from the title company after the closing was held on Monday, November 2. The Campground variance was due to the completion of electrical work in Campground 2, and the purchase of gravel for the roads.*

VVA Meeting

(continued from page 3)

ber 2026 financial statements. Dave Daniel seconded the motion. Motion passed. Tom made a motion to approve the October 2026 financial statements. Dave Daniel seconded the motion. Motion passed.

Michelle opened the Board Discussion by providing a recap of the Annual Meeting. She reported that four items were voted on from the agenda: the budget passed, the alignment of the membership year did not pass, the vote for a one-time assessment for an office replacement was tabled, and the vote on By-Law changes passed. Board members were assigned to their respective committee positions, and a discussion was held regarding the creation of ad hoc committees for both the Office Replacement and the Covenant & Restrictions Review.

Board Discussion continued with the creation of the Ad-Hoc Committee for Office Replacement. Michelle encouraged members to volunteer for this committee, noting that Linda Evans (Lot #525), Tom Johanson (Lot #240), and Mr. Woodruff has already volunteered. Tom motioned to approve both the creation of the committee and the appointment of the mentioned members. Dan seconded the motion. Motion passed.

The Ad-Hoc Committee for Covenant & Restrictions Review was then created. Members who have already volunteered for this committee include Ron Spidle (Lot #341) and Shad Mort (Lot #645), and Michelle encouraged other interested members to volunteer. Members interested in joining any committee can fill out a committee interest form, which is available on HOALife and at the Office. Tom motioned to approve the creation of the committee and the appointment of the mentioned members. Dave Schaefer seconded the motion. Motion passed.

Board Discussion concluded with a recap of the Fire Department Town Hall meeting. The meeting was held on October 25, 2026, with 31 members present. The purpose of the meeting was to inform membership about fire department improvements and discuss ISO ratings. A conversation about the recent letter received from KAW was also held, though the meeting was not created to discuss KAW exclusively. During the meeting, Michelle was asked to reach out to KAW and request a meeting with KAW's board president to discuss the liability concerns cited for ending the mutual aid agreement with Lake Viking. Michelle stated that she reached out via email on October 28, 2026, to set up the meeting and received a response on November 5, 2026, stating they would be willing to meet if all of their board members were present. Michelle will continue the conversation and offer to meet with three board members from both VVA and KAW present. Michelle clarified that our fire department will continue to improve independently of KAW, as they are two separate entities, and stated that our goal concerning KAW is to communicate, rebuild a working relationship, and maintain that relationship.

Guest Time started with Michael McFadden (Lot #558), who addressed the Board regarding the association's two-watercraft limit rule and its impact on his family following a deed name change. Mr. McFadden explained that his family has held membership at the lake since the early 1990s. Following the transfer of the lot and watercraft from his parents trust, the family worked with legal counsel to transition the property from a family trust into an LLC. They spoke to a former board president and worked with the office about this deed transfer and completed it in 2024. Now they understand this triggered handbook regulations reducing their watercraft limit from three to two and disqualifying their wake boat from remaining on the lake. Mr. McFadden expressed frustration regarding the lack of prior notice concerning these policy repercussions and formally requested that the Board restore his watercraft limit to three and permit the retention of the wake boat. Board members addressed the constraints preventing an exception. Tom expressed empathy for the situation but clarified that membership voted to prohibit name changes on all wake boat registrations, requiring their removal from the lake if such a transfer occurs. Because this restriction is established within the Association's by-laws, the Board does not have the authority to grant exceptions to by-laws. Turning to the broader watercraft limit rule, Michelle noted that the reduction from three watercraft to two was enacted during the COVID-19 pandemic to manage increased traffic and volume on the lake. She emphasized the Board's obligation to uphold the association's mission statement to preserve the community and environment for future generations, stating that the Board aims to develop a permanent, standardized rule addressing family inheritances rather than granting exceptions. Mr. McFadden thanked the Board, reiterating his regret that these consequences were not disclosed prior to the deed execution. Brian apologized for the historical communication gap, noting the transition occurred prior to the tenure of himself and current office staff. He assured the membership that while office staff will provide direct answers on clear handbook regulations, any ambiguous or gray areas will be routed to the appropriate department for clarification. Dana Granberg (Lot #521) echoed these concerns, noting her family experienced a loss of their three-watercraft allowance when transferring a deed from a trust to a personal name. Michelle and Tom reiterated the Board's commitment to establishing a consistent rule that protects generational family inheritance without creating a continuous cycle of exceptions. Michelle concluded that the Board will evaluate these watercraft limits and deed transfer rules during the December Board meeting.

Michelle reminded the membership that the next board meeting is Sunday, December 13, 2026 at 2:00 PM, with executive session starting before the meeting at 12:30 PM.

Tom motioned to adjourn the meeting at 3:01 PM. Dave Schaefer seconded the motion. Motion passed.

A sign-in Attendance Sheet is on record at the Office for reference. Let the record show that these minutes are a record of the business transacted at this meeting and are a sampling of the discussions. Comments and discussions are not reflected in whole or as actual quotations in the minutes, nor do they reflect all comments by members.

Daviess County PWSD #3
Open Meeting: September 15, 2026

CALL TO ORDER

Kyle Parkhurst, President, called the meeting to order at 4:00pm which was held at the water plant. Members in attendance were Harlan Horst, Gary Buck and Mike Lammers. Mark Closterman was unable to attend. Also in attendance were Zack Morrison, Water Superintendent, and Diane Hulett, Clerk.

APPROVAL OF MINUTES

Gary Buck made a motion to approve the minutes of the August 18, 2026, Board Meeting. Mike Lammers seconded. All members were in favor; motion carried.

PUBLIC COMMENT

There was no public comment.

OLD BUSINESS

Zack informed the board that some of the piping on the new GAC units had to be increased to allow for sufficient flow. The carbon delivery has been postponed until these repairs can be completed.

NEW BUSINESS

Financial Report:

The financial reports and bills were reviewed and discussed. Harlan Horst moved to approve the August financial reports as submitted and approve the bills and transfers. Mike Lammers seconded. All members voted to approve; motion carried.

A brief discussion was held on the need to update the Special Water User's Agreement. The topic was tabled until next meeting.

DISCUSSION

Superintendent Report:

Zack informed the board that the clear well has now been inspected and cleaned. He also shared that the recent THM results came back good. Zack addressed safety concerns related to the water tower lots. A motion was made by Harlan Horst and seconded by Mike Lammers to install a 10'x10' fence around the communication tower, not to exceed $4500. Three voted to approve with one opposed; motion carried. Zack informed the board that Daviess County PWSD#1 will be buying our old meter lids for $7.00 each. He also added that two meter sets, one meter reset, one leak repair, and 25 locates were completed in the last month.

Kyle Parkhurst, President, announced the next meeting would be October 27, 2026, at the water plant. The meeting was adjourned at 5:45pm.

Respectfully Submitted,
Harlan Horst

Obituary

Jeffrey A. Yuratovich
1961-2026

Jeffrey A. Yuratovich, 64, Gallatin, Missouri, passed away Saturday, November 7, 2026.

Jeff was a beloved son, husband, father, brother, grandfather and friend. Born on December 9, 1961, in Kansas City, KS to Doris and William Yuratovich.

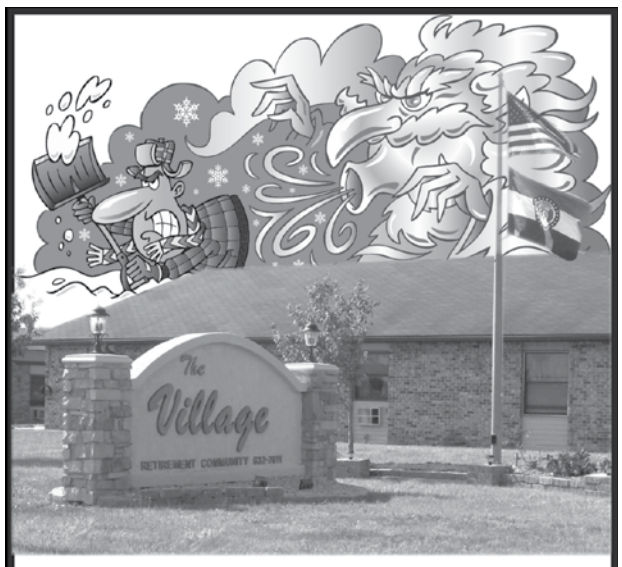

He grew up adventurously in KCK and always proud of his Croatian heritage and always proud to be a "Dotte". He spent his career working for Motorola for over 30 years. His passions in life were his family, his many friends, golf, his Kansas City Chiefs and listening to music whenever possible. Jeff was witty, kind, generous, thoughtful and spent each day living life to its fullest. The household motto was always "glass half full".

Jeff is survived by his wife Janet, his mother Doris Yuratovich, and sons Tyler Compton (Kaela), Jake Compton, and J.T. Yuratovich. His three grandchildren, Jackson Compton, Paizlee Compton and Nora Compton brought him so much joy. He leaves behind a host of beloved brothers-in-laws, sisters-in-laws, nieces and nephews.

Jeff was preceded in death by his father William Yuratovich and sister Sue Butler.

Mass of Christian Burial, St. John the Baptist Catholic Church, Kansas City, Kansas. In lieu of flowers, the family invites you to "pay it forward" with donations made to the Hope Lodge in Kansas City, MO. Online guest book and obituary at www.meierhoffer.com.

Come Spend the Winter at ... The Village.

We have apartments available for winter rentals... 3 meals a day, all utilities included, activies & housekeeping. $1,550 per month.

Fire Department Town Hall October 25

By Troy Lesan

Over the years, Town Hall Meetings have been a very effective tool for the Board of Directors to communicate information to the VVA membership. Recently a town hall with the title "Fighting Fire with Facts" was held at the Lake Viking Clubhouse. The meeting, was called in order to provide information and answer questions about the Lake Viking Volunteer Fire Department and was well-attended by all VVA Board Members, ten members of VVA Fire Department, members of the Gallatin Fire Department, and Gallatin First Responders. The presentation opened with Lake Director Brian Holcomb giving a brief historical overview of the department as well as an update on recent developments. Brian explained that on April 21, 2026 the Viking Valley Association signed an updated Mutual Aid Agreement with the Gallatin Fire Department. At the same time, the Mutual Aid Agreement with the KAW Valley Department, headquartered in Altamont and actually sharing some overlapping territory with Lake Viking seemed to be unraveling. Brian also explained that Mutual Aid between Fire Departments is mandated by state statute RSMo. 44059.

In addition to Brian, the other speakers were Association Members Mark and Stephanie Closterman, who serve as volunteers on both the Lake Viking and KAW Fire Departments, and Mark Baker of JBLB Insurance, who briefly reviewed the system of fire department ISO ratings. Also, members of the VVA Fire Department introduced themselves, and there was a Q&A with meeting attendees. All and all, this was an excellent Town Hall format with a lot of information given out. The content of the meeting is in a PDF that can be downloaded from the Official Page of Lake Viking Facebook, and there are still a few copies left in the office.

ANNUAL FIRE DEPARTMENT CHILI COOK-OFF BRINGS IN $1,743

Good chili, more good chili, as well as soups and desserts made for a fun and successful event.

Gary Buck cooked the winning chili, Kathy Buck made the winning dessert, and Shawn Mohler contributed the winning soup.

Almost everything...
you need to know about Lake Viking

Lake Viking 2026 Boards and Committees

The Fire Department meets the Friday before the Board meeting at 2 pm in the FD training room. If you are interested and have the time to serve your community, attend the next meeting.

Property Owners

You are responsible for your guests and their actions. It is your responsibility to educate them on the rules and regulations of Lake Viking. Lake Viking is private property, but all lots are owned by some other individual. Please do not drive or ride ATVs or bicycles on neighboring lots, or walk across lots to fish or use others' property without first getting the property owner's permission.

Please Keep Control of Your Pets

All property owners shall control their pets to the extent that the welfare of persons or other pets is not endangered and the animal is not allowed to cause damage to the property of another person. Pets shall be in the control of the owner or controlled by leash when not on member's property. Members are responsible for the conduct or non-control of the guest's pets. Violation of this rule may be subject to an Infraction Ticket issued to the property owner.

Board meetings are held on the 3rd Tuesday of each month at 4 pm at PWSD #3 office.

Office Hours: 8am-4pm • Monday thru Friday.

All payments for metered water bills are to be made payable to Public Water Supply District No. 3 of Daviess County, Missouri. You may abbreviate as PWSD #3. If you have any questions, contact the PWSD No. 3 office, 116 Waterworks Dr., Gallatin, Mo. 64640 (located at the water plant). Phone 660-663-2771.

Online payments can be made at: **https://pwsd3daviess.epayub.com**

For the convenience of customers of Public Water Supply District No. 3, a drop box is available at the front door of the office located at the water plant for the payment of water bills. Payments received after 4 p.m. in the drop box will post the following day.

For the convenience of Association members, a drop box is available in the front door of the association office for the payment of association bills.

Mowing Regulations

You are required to have your lot mowed by May 1st, June 1st and September 1st of each year. If you do not keep your lot mowed, or hire a contract mower, the Association will mow it, and bill you $90.00 for each mowing.

The Association does not want to be in the mowing business.

Please self-mow your lot or hire a contract mower to do it for you. All contract mowers are required to submit a customer list to the Association office. If you are not on their initial list, you may be accidentally billed by the Association, so please contact your mower early.

The below listed mowers have registered with the Association office and can usually be reached in the evening. There may be other mowers who advertise in the Lake Viking News.

Contract Mowers Can Save You Money

Building Permit Notice

Building Permits are required, but not limited to the following projects: fences, storage shed, shelters, decks, boat docks, boat houses, room additions, porches and any alteration of the roof line; and any other construction that requires large earth moving equipment, concrete trucks and other equipment that requires multiple axle trailers. Failure to comply with building regulations could result in a minimum fine of $500 and loss of lake privileges. Any construction not in compliance with these regulations could result in forced relocation of the structure.

Watch When and Where You Burn!

Anytime you are burning brush, etc., on your lot, make certain you are burning on your lot and not someone else's property. Unattended burning is prohibited and burning is not allowed when winds are in excess of 15 mph and shall be subject to an Infraction Ticket and fine.

Member Reminders

• All Motorcycle operator(s) and passenger(s) under age 26 shall wear a protective helmet meeting the standard of the state of Missouri.

• Goose population control is hard to manage... The first step in this process is DO NOT FEED THE GEESE!
